When submitting a prayer request, users of the MDPC Prayer Wall are able to control their desired level of privacy under the "Share This" drop-down tab found in the submission form ("Submit a Prayer Request"). An explanation of each of these selections is detailed below:

- Share This - After being screened for appropriate content, your prayer request and just your first name will appear on the website so that others can pray for it.
- Share This Anonymously - After being screened for appropriate content, our prayer request and the name "anonymous" will appear on our homepage so that others can pray for it.
- Do NOT Share This - This prayer will not appear on our prayer wall, but will be sent to the MDPC Prayer Chain.
